

# Research Methodology Workshop

Ready to move from research ideas  
to clear, IRB-approved protocols?

The Department of Clinical Research and Institutional Review Board invites you to an intensive, hands-on Research Methodology Workshop designed to equip clinicians and researchers with practical, real-world research skills.

Through guided exercises, expert mentorship, and live examples, this workshop will help you plan, structure, and confidently present your research from concept to submission.

## FACILITATOR

**Dr Murali Mohan Reddy** MD (PGI), Msc  
Expert in Clinical Research and  
Medical Education

## WHAT YOU WILL GAIN

- Step-by-step guidance on writing IRB-ready research protocols
- Practical tools for planning, conducting, and documenting research
- Clear understanding of research methodologies from topic selection to critical appraisal
- Interactive, hands-on learning with direct expert feedback
- Confidence to take your research project forward with clarity and precision

## WHO SHOULD ATTEND

- DNB (ObGyn) Trainees
- FNB (MFM) Trainees
- Nurses and Midwives
- Researchers at the planning or early execution stage
