

PRESENTS

WHO Essential Childbirth Care (ECBC)

MODULE 2: FIRST STAGE OF LABOUR

Step into a hands-on, simulation-led learning experience.

Strengthen your clinical skills in maternal and newborn care through a one-day immersive workshop designed around WHO recommendations and real-world practice.

WHY ATTEND?

- Learn in a safe, interactive environment
- Build skills through simulation, role play, and teamwork
- Apply evidence-based practices for the first stage of labour
- Gain confidence in delivering respectful, quality care

WHAT YOU WILL LEARN

- Provide evidence-based care during the first stage of labour
- Use POCQI tools to identify and improve quality of care
- Apply Quick Check, RAM & referral protocols effectively
- Strengthen clinical decision-making through mentored simulations

WHO SHOULD ATTEND?

- Nurses
- Nursing Students
- Midwives
- Midwifery Students
- Doctors
